CERTIFICATE OF FACSIMILE TRANSMISSION

I hereby certify that the within Amendment was facsimiled transmitted on the 10th day of May, 2001.

Nancy Soto

CERTIFICATE OF MAILING
UNDER 37 C.F.R. 1.8(a)

It is hereby certified that the within Amendment is being deposited with the United States Postal Service in a postage prepaid envelope, first-class mail, addressed to Hon. Commissioner of Patents and Trademarks, Washington, D.C. 20231 on this 10 day of May, 2001.

Nancy Soto

Clean copy of amended claims

1. An integral disposable elasticized absorbent article comprising:

- B'
- (a) an absorbent body having a front waist portion, a back waist portion, a crotch portion and a pair of spaced apart leg openings;
 - (b) an absorbent core member having a top portion and a bottom portion;
 - (c) means for fastening said absorbent body to the body of a wearer; and
 - (d) at least one elasticized barrier layer said barrier layer having an edge secured to said absorbent body and another edge overlying at least a segment of said top portion of said absorbent core member, thereby forming a retaining enclosure between said barrier layer and said segment of the top portion of said absorbent core member.

2. An integral disposable elasticized absorbent article as in claim 1 comprising an elasticized barrier having barrier segments, each of said segments being secured to said absorbent body to form a retaining enclosure between each of said barrier segments and a portion of said absorbent core.

3. An integral disposable elasticized absorbent article comprising:

- (a) an absorbent body having a front waist portion, a back waist portion, a crotch portion and a pair of spaced apart leg openings;
- (b) an absorbent core member having a liquid pervious top layer facing the body of the wearer, a liquid impervious back layer substantially coextensive with said liquid pervious layer, and a liquid absorbent layer disposed between said top layer and said back layer;
- (c) means for fastening said absorbent body to the body of a wearer, and

- (d) an elasticized barrier layer overlying said absorbent core member wherein said elasticized barrier layer comprises barrier segments, each segment being secured to said absorbent body to form a retaining enclosure between each said segment and a portion of said absorbent core member.

B¹ 4. An integral disposable elasticized absorbent article as in claim 3 comprising an elasticized barrier layer having barrier segments, each of said segments being secured to said absorbent body to form a retaining enclosure between each of said barrier segments and portion of said absorbent core member.
